

Providence Extension Program | Core F Rhetoric II  
Q4 W5 Weekly Assignment Guide (4/16, 4/18)

*Due Tuesday 4/16:*

- **Your focus for the weekend should be your speech—practice EVERY DAY. Remember, practice is not just skimming through—take your speech apart, formatting it as a document that you will use as you speak. Then spend time *learning* it, section by section.**
- **As you grow comfortable with a section, add another to it, always practicing the new section with the old.**
- **Be prepared to *present* (not merely read) a section of your speech—your choice as to which**
- **And don't forget your PPT—look for images, consider what words you will add as text (sparingly), mark in your notes where slides or points will change. Start building the actual PPT—it's due Thursday!**
- **Remember your images must also be cited—if you pull a photo from somewhere, credit it in tiny print under the image.**
